HOLIDAY BREAKS

It's all about the Journey.

The purpose behind the origination of us is very simple.
'To provide as much happiness & adventure who get along in this journey of life with us!'

When asked what do you think life is, I said it's a journey! A journey into the unknown, where I try to make the best of all the resources that I have! The resources that are life resources, the culture, the nature, the unexpected, the unwanted, all that is said and is unsaid, friends, family, unknown souls and through them and with them. Yet, I continue this 'Journey', this is what 'Life' is for me.

With this thought and with this approach, the conception of our Company **HOLIDAY
BREAKS** began!
It's all about the Journey.

While we all travel our own paths in life, a little break is all what we want to rekindle the journey and as we plan to take this short course, we all want it to be as comfortable and entertaining as short it might be!

The purpose behind the origination of this group is very simple and basic. 'To provide as much happiness and adventure to those who get along in this journey of life with us!'

What we promise is to make the journey into the unseen and unexplored or to that which is close to our heart, memorable, comfortable, adventurous and fulfilling to the heart, to our fellow travellers.

Our Motto can be described as **BREAK**
